Alnylam Patient Access Philosophy

Alnylam is committed to advancing innovative RNAi therapeutics for the treatment of patients with life-threatening diseases. For patients and society to benefit, these innovations must reach the people who need them. The overarching objective of Alnylam’s Patient Access Philosophy is to make the therapies we develop available to those who will benefit from them.

Central to this Philosophy, our guiding principles are:

HELP PATIENTS
- Above all, put patients first
- Partner with patient advocacy groups, healthcare providers, and payers to support disease awareness, diagnosis, and access efforts
- Actively listen and respond to all patients seeking support and provide meaningful, practical solutions

DELIVER VALUE TO PAYERS AND PHYSICIANS
- Demonstrate evidence-based value objectively and transparently
- Establish responsible pricing that reflects value delivered to patients, caregivers and society
- Proactively pursue reimbursement through value-based agreements and other innovative approaches
- Commit to growth through continuous innovations, not arbitrary price increases

BE PROACTIVE AND ACCOUNTABLE
- Advocate for policies that promote innovation, value communication, and patient access
- Address and seek solutions to financial barriers to access
- Act with medical-scientific excellence and integrity
- Act with urgency to minimize the time it takes to get approved therapies to patients
- Track and report our efforts to help patients access therapy
